Avanti Slot
Future starts now

STATE OF ART

After six years in the market place the winds of change arrive. Nobody escapes from these troubled times and it's not easy to keep focused on a hobby when your thoughts are far away. That's the moment to stop, wait and think. We must find deep in our heart the machine that moves us, wake up this feeling and let it free.

Here at Avant Slot we are working to build your dream cars for collectors, racers and home users, it doesn't matter which you are.

In the 2012 collection you will find the new state of the art cars made by slot enthusiasts for the slot enthusiast. We do not have a general marketing manager working with a calculator, just a team that put their hearts into each product.

If you can imagine the engine noise while you have one of our cars in your hand, welcome to the world of Avant Slot.

Finally I'm proud to say that we have come back home. Models will be made under strict parameters in our Spanish factory.

Alberto Ranz
CEO of Avant Slot
